Object: CSTB

Dear Mr. Senyk,

Herewith we --- Schweizer Metallbau AG as manufacturer of the framing system SOLRIF --- declare that our customer ISSOL S.A. is authorized to use our system and all necessary information related to the system to enter the process of ATEC-certification at the CSTB.

The information will include manufacturing data, quality process related data, tests and performance data and has to be treated confidentially. Therefore the technical data requested by CSTB is protected against any communication or data transfer to any third part.

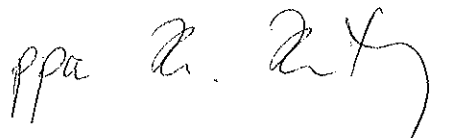

I understand that this authorization is only valid for the duration of the certification process.

After passing the certification program, ISSOL S.A is allowed to refer to the brand SOLRIF in combination with their product and related products for commercialisation.

Ernst Schweizer AG
